

FRIENDS OF LEAGUE CONDEMN ADDRESS OF HARVEY IN ENGLAND

WASHINGTON, May 21.—The address delivered at the Pilgrims' dinner in London by Col. George Harvey, American ambassador, was received with consternation and amazement in some quarters here, and was roundly condemned as presumptuous and unbecomingly by friends of the League of Nations. Typical of the views were those of Senator Hitchcock of Nebraska, leader of the fight in the Senate for ratification of the treaty of Versailles.

Senator Hitchcock's view. "Col. Harvey evidently forgot that he was speaking as the ambassador from the United States," said Senator Hitchcock. "His address was filled with improprieties. His attempt to commit Harding's administration to his own narrow and extreme views on the League of Nations may succeed. I shall be very much surprised, however, if President Harding gave him the authority to do so. Neither the ambassador to Great Britain nor the ambassador to any other country is the one to announce the foreign policy of the United States."

Senator Hitchcock went on to say that "Col. Harvey's flings at ex-President Wilson were indecent," and that "Col. Harvey's analysis of the motives which led the United States to enter the war is a discreditable performance."

"That analysis," he continued, "puts the United States on the lowest possible level and seeks to belittle, if not to besmirch, the great record made by this nation in that crisis of the world's history."

"Col. Harvey's description of an Anglo-American alliance, in the vision of Britannia and Columbia hand in hand for mutual benefit, hardly expresses the aspirations of the American people."

Lodge Challenges Critic. Senator McKellar, Democrat, Tennessee, charged Mr. Harvey with having made "a remarkably conflicting statement" in declaring that this nation would not have anything to do with the League of Nations or its commissions, while announcing that he would represent this government in consideration of the Silesian question.

"The supreme council," said Senator McKellar, "is acting for it (the League of Nations) and appointed by it."

Apparently some of those at the dinner did not pay much attention to Mr. Harvey's declarations, he added, and quoted from the address of Premier Lloyd George, congratulating America on "coming in to European councils."

"And he says he's not going in," said Senator McKellar, regarding the American ambassador.

Senator Lodge, Republican, Massachusetts, interrupted to suggest that Senator McKellar learn the difference between the League of Nations and the supreme council.

RESUME CAR SERVICE AFTER ALBANY STRIKE

(By Associated Press.) ALBANY, N. Y., May 21.—Trolley service was resumed today after a second night of disorders attendant upon the strike of the employees of the United Traction company, called nearly four months ago. At least ten persons were injured, two of them seriously, in the disorders last night. Trolleys were again partly wrecked, passengers were hit by missiles, police charged the crowds and were themselves targets for flying stones. The police reported that on Broadway shots were fired from the roofs of buildings.

Near the state capital one policeman fired a shot that wounded a man in the leg. Howard W. Slade, a passenger on a car stoned as it was approaching the state capital, suffered a fractured skull.

The authorities attribute the disorders to their campaign to drive the motor buses, which have been competing with the street cars, from the thoroughfares.

Mexican Radicals Quiet; Oregon Holds Statement

(By Associated Press.) MEXICO CITY, May 21.—Hope is entertained here that the controversy between radicals and members of the Liberal constitutional party in the chamber of deputies may be adjusted without an open break. More than a week has passed since alleged Bolsheviks forced their way into the chamber and interrupted deliberations there, and belief is expressed that, with the first bitterness dissipated, the deputies may be able to compose their differences, or at least declare a truce.

There was perfunctory debate over a section of the Agrarian bill in the chamber last evening, and the opposing factions did not indulge in any exchange of invectives.

The members apparently were marking time until President Obregon sends an answer to the memorial relative to alleged radicals in the government employ which was sent him early this week by the Liberal-Constitutionalists. The chamber will not meet today, and President Obregon will leave tonight for Cordoba, state of Vera Cruz. Thus it is probable his answer will not be despatched until after his return on Sunday.

Ewbanks Testimony Gets Lay Sentence

NEWCASTLE, Ind., May 21.—Dr. W. A. Winters was sentenced to jail for 30 days and fined \$300 by a jury in circuit court here Friday on a charge of maintaining a nuisance in violation of the state prohibition law. The case attracted considerable attention here because the defendant is well known being the father of Catherine Winters, who disappeared eight years ago and who has never been found.

The state exploded a bomb on the defense with the testimony of Mrs. Bertha Ewbanks, of Richmond, who told of making a trip to Newcastle with J. J. Richardson, of Cambridge City, when 15 gallons of "white mule" were delivered to the Winters office. Richardson is now serving a sentence for violating the state liquor law.

The prosecution was the outgrowth of a suit to have been filed by the dentist's office last February, and which came to light when Walter Fisk, owner of a meat market, was slashed on the leg following an altercation with George Brown, colored. Fisk turned state's evidence and testified that the liquor he had to drink on that occasion was produced by Winters.

He will make a fresh start at 8 o'clock tonight.

Proposes New Plan in British Strike

(By Associated Press.) LONDON, May 21.—British mine owners are reported to have brought forward a new plan which may result in a settlement of the miners' strike, which this morning entered upon its fifty-first day.

The details of the new plan have not been divulged, but it is declared there is reason to believe that they will suggest that wages should be governed by the cost of living. George Roberts, Laborite member of parliament and former food controller, speaking Thursday night, said the strike had been prolonged because of the "cowardice of miners' leaders in not telling the men the truth."

The men, he said, would return to work within a fortnight, "with conditions they could have had long ago simply by going into conference." Imported coal is being landed at Folkestone, Leith, Middlesbrough, and Portland. Four million tons of idle shipping is lying in British ports.
